

CALL FOR SPONSORS

International Symposium on Embedded Systems Design and Applications

ESDA 2010

*4th Edition, Baia Mare, Romania
May 13 – 15, 2010*

ESDA Organizer:

Intelligent Embedded Systems Group
Electronic and Computer Engineering
Department
North University of Baia Mare

Steering Committee:

Andrei Vladimirescu, University of California
at Berkeley, USA
Gene Apperson, Diligent Inc., USA
Mircea Bodea, „Politehnica” University
Bucharest, Romania
Florin Breaban, Artois University, France
Attila Buchman, North University of Baia
Mare, Romania
Marcian Cirstea, Anglia Ruskin University,
Cambridge, UK
Dan Claudius, „Politehnica” Univ. Bucharest
Clint Cole, Washington State University, USA
Mircea Dabacan, Technical University, Cluj
Napoca, Romania
Tom O'Dwyer, Analog Devices, USA
Géza Husi, University of Debrecen, Hungary
Imre Kocsis, Univ. of Debrecen, Hungary
Eugen Lupu, Technical Univ., Cluj Napoca
Ştefan Marinca, Analog Devices, USA
Ştefan Oniga, North University of Baia Mare
Emanuel Popovici, National University of
Ireland, Cork, Ireland
Dorin Petreus, Technical Univ., Cluj Napoca
Corneliu Rusu, Technical Univ., Cluj Napoca
Ádám Tihamér, Univ. of Miskolc, Hungary
Alin Tisan, North University of Baia Mare
Ján Turán, University of Technology, Košice,
Slovakia
József Vásárhelyi, Univ. of Miskolc, Hungary
János Végh, Univ. of Debrecen, Hungary

ABOUT THE SYMPOSIUM

The International Symposium on Embedded Systems Design and Applications will be held 13-15th May, 2010 in Baia Mare, Romania. ESDA symposium is held every year since 2006. The 4th ESDA Symposium will bring together over 50 participants from all over Europe and USA.

The ESDA Symposium addresses all aspects of embedded hardware/software system engineering. It is a discussion forum, specially dedicated to the PHD students, that center on state-of-the-art investigations, developments and applications. It focuses on advanced system and design automation concepts, paradigms, methods and tools, as well as modern implementation technologies enabling an effective and efficient development of high-quality systems for demanding applications.

SPONSORSHIP

Sponsors are very important to the symposium and the symposium committee ensures that their contribution is well recognized. We like you to consider becoming a sponsor.

You can help us by:

- donating money
- donating support materials for the Symposium, such as folders, pens, bags and similar
- financing the publishing and distribution of the Conference Proceedings
- sponsoring a part of the symposium (workshop, reception, lunch/dinner breaks...)

BENEFITS

If you choose to be an ESDA Symposium Sponsor:

Your name/logo will appear on:

- the official web site linked to your web site
- symposium literature
- in the published journal

You will be able to:

- participate in the Symposium
- display materials in the exhibition area
- organize a workshop or give a presentation to the Symposium about your products (length of presentation reflects the size of the sponsorship)

If you wish to support ESDA'10 as a sponsor of any kind, please contact esda@ubm.ro
